You don't have to give up your favorite foods to lose weight and feel your best.

Ever wonder how some people can eat all their favorite foods and not gain weight? Naturally Slim is an online program that will teach you how. And here's a hint: it doesn't include starving, counting calories or spending hours prepping 'approved' foods. SWHP gives you the chance to learn how to eat the foods you love while reducing your risk of developing serious conditions, like diabetes or heart disease.

Naturally Slim is available at NO COST to you and is accessible by computer and mobile device so you can participate whenever it's convenient, wherever you are.

We are pleased to offer a maternity program for pregnant SWHP members. This initiative is focused on helping expectant mothers enjoy a healthy pregnancy.

Stay better, longer

Complex Case Management

If you have chronic conditions or complex care needs, our nurse case managers will work with you, your family, and your physician to create and manage your care plan. Case managers advocate for you and can help you navigate the healthcare system and arrange the services you need. They can also answer questions and help you understand your condition and care plan. If Disease Management is right for you, they'll incorporate the program into your care. There is no additional cost to you for this voluntary program. It's all part of our goal to help you get the best possible results and the greatest value from your health plan.

Disease Management

Disease Management empowers you to manage your chronic condition and help prevent complications. We work with your healthcare providers to identify chronic conditions quickly and treat them effectively. We can also identify self-care activities that help you manage your condition at home. Together, we'll work to slow down the progression of your disease and help you **stay better, longer**.

Accountable Care Organization

As a member of a health plan working with an Accountable Care Organization, you can expect care that is:

HIGH-QUALITY. You should expect the care you receive to be safe, timely, effective, efficient, equitable and patient-centered.

COORDINATED. Your doctor guides your care team and coordinates appropriate services across all sites of care that might include a specialist's office, the hospital, or laboratory and imaging services.

CONVENIENT. Many of our doctors and facilities offer same-day appointments, extended hours, and onsite laboratory and imaging services. Urgent care centers and retail care clinics like Walgreen's and CVS are in the BSW Preferred network.

COMPREHENSIVE. The BSW Preferred network of primary and specialty care doctors and facilities is broad. We are confident we can meet your care needs.

COST-EFFECTIVE. Copays and out-of-pocket expenses are kept in check when your care needs are delivered inside the BSW Preferred network (doctors, hospitals, laboratory, imaging and post-acute care.) All other providers are considered out-of-network and no benefits are available for services other than emergency situations.
