Texas Health Steps Telemedicine Guidance for Providers: Answers to Common Questions Update

Background:

On May 8, 2020, in response to COVID-19, HHSC issued guidance permitting remote delivery of certain components of Texas Health Steps medical checkups for children over 24 months of age (starting after the "24-month" checkup).

Key Details:

HHSC has updated the commonly asked questions document to augment information contained in the original guidance. This information is posted in the Texas Health Steps portion of the MCS Provider COVID-19 page.

Guidance:

MCOs should direct providers to the HHSC website for updates to the FAQs regarding the guidance permitting remote delivery of certain components of Texas Health Steps medical checkups.
