Important Update on COVID-19 Vaccines

As part of our ongoing fight against the global pandemic, Scott and White Health Plan will be **covering the costs of the newly approved vaccines** with zero cost-share for our members. This applies to fully insured and self-funded commercial members as well as our Medicare and Medicaid members.

Please review the guidelines below for information on billing and coding.

Commercial Employer Groups and Individual Plans

Scott and White Health Plan and its self-funded customers will cover the administration of COVID-19 vaccines with no cost share (copayment, coinsurance or deductible) for in- and out-of-network providers. Additionally:

- Administration fees for in-network providers will be based on contracted rates.
- Administration fees for out-of-network providers will be based on CMS published rates.

Medicare Advantage Plans

Charges for COVID-19 vaccine administration for Medicare beneficiaries should be billed to the Centers for Medicare & Medicaid Services (CMS) Medicare Administrative Contractor (MAC). The MAC will reimburse claims for Medicare beneficiaries with no cost share (copayment, coinsurance or deductible) for the remainder of 2020 and through 2021. For more information, see the CMS COVID-19 Insurers Toolkit available at [CMS.gov](https://www.cms.gov).

Any COVID-19 vaccine-related claims for Medicare beneficiaries that are submitted to Scott and White Health Plan will be denied, and healthcare professionals will be directed to submit the claims to the MAC.

Medicaid Members

Scott and White Health Plan will reimburse for the vaccine administration at no cost share (copayment, coinsurance or deductible) for the member. Charges for the office visit and other services rendered during the visit will be adjudicated according to the member's benefit plan.

Codes and Descriptors

Please use this chart for correct coding of vaccine administration.
