

Scott & White Health Plan **MOMS Program**

The SWHP MOMS Program helps ensure you have the support and resources you need to be successful post-delivery.

MOMS Program nurses follow your inpatient stay for the delivery of your baby and contact you after you return home. These licensed professionals will help you with:

- The general well-being of both you and your baby
- Breast/bottle feeding
- Follow-up appointments for you and your baby, including a postpartum follow-up visit within the appropriate date range set by national standards
- Contact information for lactation consultants in your area
- Contact information for a nurse advice line (as applicable to your health plan)
- Information on how to add your baby to your health plan

The MOMS Program team is available from 8 a.m. to 5 p.m., Monday through Friday, at

888-316-7947.
