### Important note:

Unless otherwise indicated, this policy will apply to all lines of business.

Even though this policy may indicate that a particular service or supply may be considered medically necessary and thus covered, this conclusion is not based upon the terms of your particular benefit plan. Each benefit plan contains its own specific provisions for coverage and exclusions. Not all benefits that are determined to be medically necessary will be covered benefits under the terms of your benefit plan. You need to consult the Evidence of Coverage (EOC) or Summary Plan Description (SPD) to determine if there are any exclusions or other benefit limitations applicable to this service or supply. If there is a discrepancy between this policy and your plan of benefits, the provisions of your benefits plan will govern. However, applicable state mandates will take precedence with respect to fully insured plans and self-funded non-ERISA (e.g., government, school boards, church) plans. Unless otherwise specifically excluded, Federal mandates will apply to all plans. With respect to Medicare-linked plan members, this policy will apply unless there are Medicare policies that provide differing coverage rules, in which case Medicare coverage rules supersede guidelines in this policy. Medicare-linked plan policies will only apply to benefits paid for under Medicare rules, and not to any other health benefit plan benefits. CMS's Coverage Issues Manual can be found on the CMS website. Similarly, for Medicaid-linked plans, the Texas Medicaid Provider Procedures Manual (TMPPM) supersedes coverage guidelines in this policy where applicable.

### SERVICE:

**PRIOR AUTHORIZATION: varies by plan**

**POLICY:** This policy lists the diagnoses and ICD 10 codes that are in scope for the utilization review agent vendor, Oncology Analytics® (OA). OA conducts prior authorization reviews for **medical benefit** coverage requests for select oncology medications and other medications and interventions used for oncologic conditions if the diagnosis submitted is on the list below.

The following are out of scope for OA and should be submitted by the prescriber to the applicable utilization review entity:

- **Medical benefit** medication requests considered **out of scope** by OA will be reviewed by the **health plan**. Example: Medical benefit drug used for diagnosis not on list below.
- **Pharmacy benefit** medication requests for any diagnosis (including oncologic conditions) will be reviewed by the health plan **pharmacy benefit manager (PBM)**.
