

Hello and Welcome to Baylor Scott & White Preferred.

Scott and White Health Plan (SWHP) and Baylor Scott & White Quality Alliance (BSWQA) have teamed together to form Baylor Scott & White Preferred, an integrated health plan solution.

Baylor Scott & White Preferred providers belong to the BSWQA Accountable Care Organization (ACO) and are contracted with Scott and White Health Plan to provide care for you.

HOW DOES IT WORK?

Your primary care doctor:

1. leads a care team to help manage your care if you have been diagnosed with a complex illness
2. ensures your preventive services are up-to-date so you stay healthy throughout the year
3. uses electronic health records to help keep you and your care team on the same page in regard to:
 - other specialty doctors you may be seeing
 - what medicine you're taking
 - your health history
 - your test results — in real time
 - identifying any gaps in your care

WHY DO YOU NEED A PRIMARY CARE DOCTOR?

While selecting one is not required, creating a continuing, trusting relationship with a primary care doctor has immense value. They know you and your medical history, allowing them to recognize changes in your health and care for you as an entire person (physical, mental and emotional). Your ACO team can assist with referrals; however, a referral is not necessary to see any network provider you choose.
